AMA MARKET

Mr. Huang Daode is an influential entrepreneur and chairman of Zhejiang AMA&Hien technology Co., LTD. and Zhejiang Hien New Energy Equipment Co., Ltd. Starting from scratch in 1989, he has led the transition from the electronic connector industry to becoming a prominent figure in the production of air source heat pumps. His dedication and unwavering commitment to sustainable energy have been recognized through numerous awards and accolades, firmly establishing him as a distinguished authority in the industry.

ZHEJIANG AMA&HIEN TECHNOLOGY CO., LTD.

Founded in 1992, is a professional electronic connector enterprise and a national modern high-tech green factory. Located in Puqi, Yueqing City, it has over 1,200 employees, a 50,000-plus sq.m. total area and 120,000-sq.m. construction area. With 300 million yuan registered capital, it's invested 67 million in fixed assets and 55.5 million in working capital.

It mainly produces electronic connectors, terminals, automotive parts, heat pumps, HVAC heat source products, etc. Adopting "innovation, integrity, efficiency, cooperation" as its philosophy, it has a professional team. Rated advanced at provincial and municipal levels, it has advanced equipment. It's a supplier for famous enterprises like Skyworth, Haier, Geely.

Having offices in multiple places, it provides over 2,600 connector products, has 20+ patents and 300+ production equipment. It's supplied over 130 cities and regions. It has an integrated model and passed various certifications. Its products meet EU requirements. It has a postdoctoral workstation and cooperates with universities.

AMA&HIEN will improve management, focus on customers, and provide better products and services, welcoming cooperation.

1 REGISTERED CAPITAL: 300 MILLION RMB

2 CAPITALIZATION: 380 MILLION RMB

3 PLANT AREA: 50,000 SQM

4 COMPANY STAFF: OVER 280 EMPLOYEES

DEVELOPMENT HISTORY

2021

Industrial upgrading in 2021, including energy storage and power supply to our business.

2023

The company has been awarded the title of National Green Factory.

2011

A new business unit was established to design and produce new products. We entered to a new field.

2019

The company was awarded AAA level contract abiding and trustworthy enterprise.

2005

A new business unit was established to design and produce new products. We entered to a new field.

2009

A new business unit was established to design and produce new products. We entered to a new field.

2000

The company expanded and officially renamed to Zhejiang Zhengli Electronic & Electrical Appliances Co., Ltd.

2001

We accomplished a one-stop service of product design, mold processing and production.

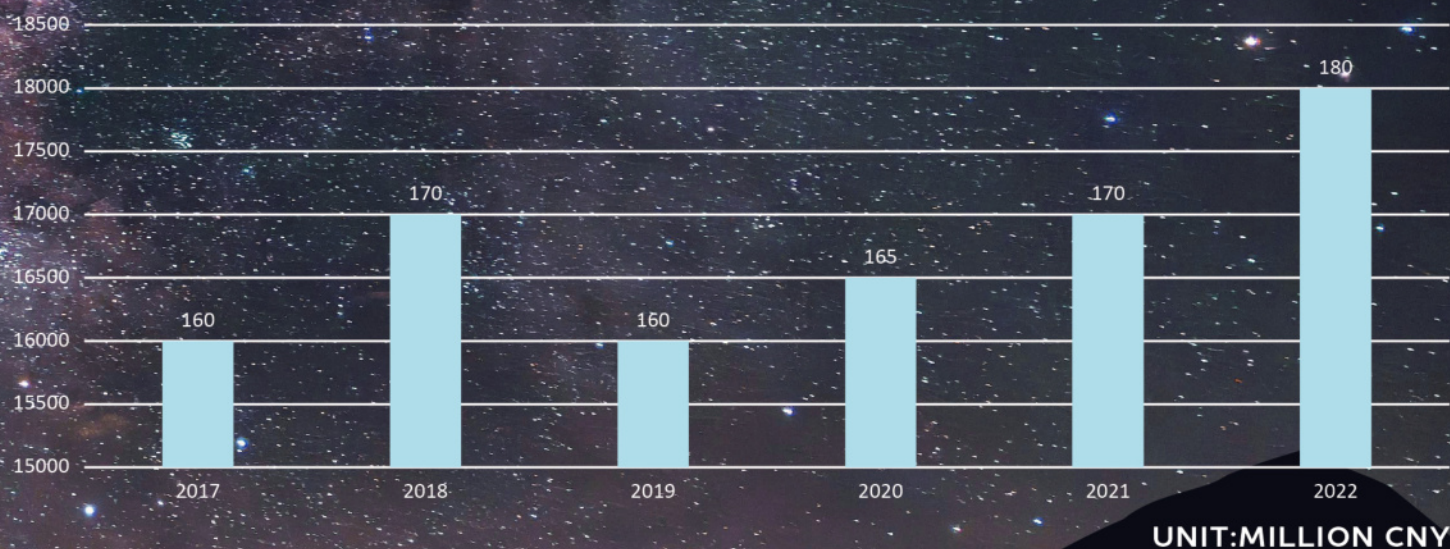

1992

Yueqing Hongqiao Jiali Electronic Component Factory was established, specializing in producing connectors.

MOLDING PROCESSING

Equipment Name		Brand	Quantity
Wire-cutting EDM Machine		Sodick	3
Electrical Discharge Machine		Mitsubishi hanlin	12
Precision Grinding Machine		Yuqing Yalida	28

PUNCHING AND STAMPING

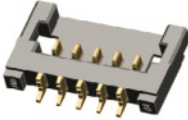

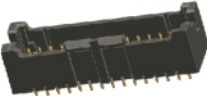

Equipment Name		Brand	Quantity & Output
High-speed Punching Machine		ChenLi	13 sets / 150million per month
High-speed Punching Machine 25T		ChenLi Taijishan	13 set / 100million per month
High-speed Punching Machine 50T		ChenLi Taijishan	4 sets / 60million per

NEW PRODUCT DEVELOPMENT

INJECTION PROCESSING

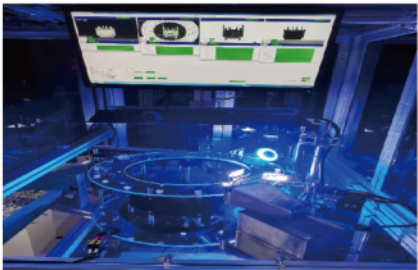

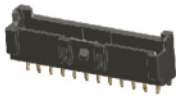

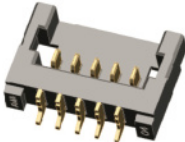

Equipment		Name	Quantity	Output
30T		Demag Sumitomo	80 sets	100million per month
80-160T		Haitian HT		
50T		Fanuc		
Central Feeding System		FANUC		

ASSEMBLING

Equipment		Quantity	Product	Output
Automatic Assembling Machine		76 sets		10 million per month
Automatic Needle Processing Machine		100 sets		40 million per month

AUTOMOTIVE CONNECTORS

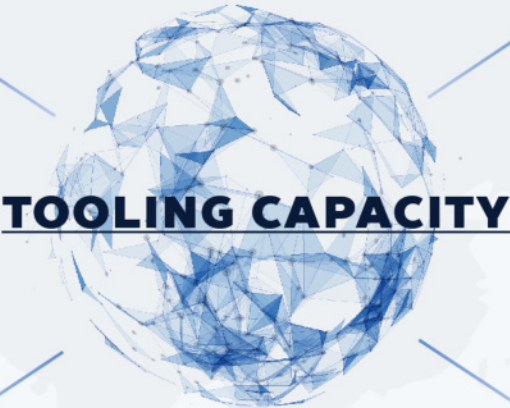

PRODUCTION QUALITY CHECKING PROCESS

Equipment		Quantity	Product	Output
Needle Pressing CCD Detection Machines		18 sets		36 million per month
Assembling Pressing CCD Detection Machines		13 sets		9 million per month
Punching Pressing		5 sets		50 million per month

We adopt production equipment of industry-leading brands to ensure extremely high production capacity every month and meet the high demands of major brand customers at home and abroad. At the same time, our production and equipment maintenance are strictly in accordance with the 7S management standard, and we closely monitor every step of production.

MOLD PROCESSING CAPALITY

INNER CAPACITY

MONTHLY NEW MOLDS OVER 20 SETS

GROWING INTERGRATIVE POTENTIAL

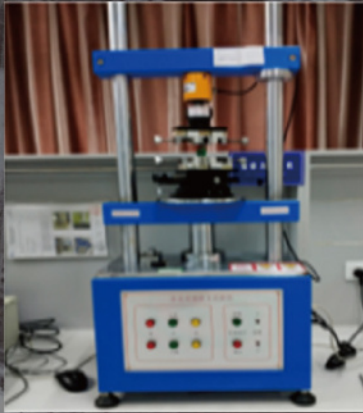

We’ ve established a post-doctoral scientific research workstation for joint development and research. It has also carried out strategic cooperat-ion with provincial enterprise research institutes and mul-tiple universities. The team currently has more than 100 R&D per-sonnel, including 20 R&D personnel responsible for the wire harness sector and 15 process personnel.

This effectively guarantees the smooth implementation of projects and provides quality and quantity services to customers.

QUALITY MANAGEMENT EQUIPMENT

In addition to various CCD detection equipment required by PQC, the company has also established multiple laboratories for chemical properties, temperature properties, material properties, waterproof properties, weather resistance properties, electrical properties, and comprehensive testing. A total of more than 60 experimental detection equipment are equipped, which can be comparable to third-party laboratories. In many aspects, independent and complete product quality monitoring has been realized.
